

CERTIFICATE

THIS IS TO CERTIFY THAT

VOYA

has made contributions to World Land Trust's Carbon Balanced programme
to offset the equivalent of:

557.84943 tonnes of carbon dioxide

emissions associated with the general operations of VOYA's head office
during the period January 2013 – December 2018

These funds will be invested in the protection of threatened tropical forests where WLT is working through local project partners to protect biologically important habitats throughout the world. WLT's Carbon Balanced programme currently includes projects in Vietnam and Guatemala.

Thank you for taking positive action

JONATHAN BARNARD, CHIEF EXECUTIVE, WLT
